Vector Corporation EUROPEAN TECHNICAL SERVICE REPRESENTATIVE

Vector Corporation is pleased to announce that Reinhard Wagner has joined Vector's Customer Service department as a European Technical Service Representative. Reinhard will provide all technical services to support our customers and equipment, including equipment start-ups, calibrations, technical assistance and training, warranty support and equipment trouble shooting. He will also provide support for the Vector European equipment rental program. His territory includes all of Europe, Iceland, Israel and Turkey.

Reinhard has over 12 years of professional experience and education in electronics working as a service technician for laboratory and analytical instruments. As a Project Leader and Service Manager, he was responsible for the planning phase of construction and installation of robotics and control systems.
